## PRODUCT DATA

## RESCOBOND 90

Description: RESCOBOND 90 is a chemically-bonded, air-setting, single component, high purity alumina refractory castable. This product bonds to existing refractory and can be used in a variety of different applications including patching. To use, mix RESCOBOND 90 with water and cast. It develops a quick set and can be heated shortly after installation.

Physical properties shown are average values of samples taken under controlled conditions ASTM test methods used where applicable

Maximum Service Temperature: $3200^{\circ} \mathrm{F}\left(1760^{\circ} \mathrm{C}\right)$
